12503 Exchange Dr. Suite 558  
Stafford, TX 77477

The Cosmetics Division of Health Canada has received your product labels for the Cosmetic Notification Submission of "Beyond – e-Bright Whitening Gel". Based on the information provided, the product appears to meet Health Canada's expectations with respect to the labelling requirements for "Peroxide and Peroxide Generating Compounds" set out on the September 2009 Cosmetic Ingredient Hotlist ([www.healthcanada.gc.ca/hotlist](http://www.healthcanada.gc.ca/hotlist)). The notification forms for this product will now be processed.

This determination is dependant on the information available to Health Canada at the time of the enquiry. Compliance status may change with changes to labelling, representation or formulation. The manufacturer must ensure compliance with all Canadian requirements governing the sale of cosmetics and their ingredients in Canada, including those of the *Food and Drugs Act* and *Cosmetic Regulations, Consumer Packaging and Labelling Act* and *Regulations* and the *Canadian Environmental Protection Act*.

Please note that this is not a product approval. Additionally, as per section 17 of the *Cosmetic Regulations*, neither this letter nor acknowledgement from Health Canada can be used directly or indirectly for promotional purposes.

If you have any further questions, please do not hesitate to contact the officer at the coordinates listed below.

Sincerely,

Anna Starling  
Scientific Regulatory Officer, Cosmetics Division
